

**Amendments to the Claims**

This listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

Claims 1 – 29 (Canceled)

30. (Currently Amended) A kit for providing a durable image on a substrate comprising:  
an image transfer medium;  
aqueous mordant dispersion; and  
dispersed hydrophobic material, wherein the aqueous mordant dispersion and the dispersed hydrophobic material are separate from the image transfer medium.

A1  
31. (Original) The kit of claim 30 wherein the aqueous mordant dispersion and the dispersed hydrophobic material are combined into a mixture.

32. (Original) The kit of claim 30 wherein the aqueous mordant dispersion and the dispersed hydrophobic material are separate.

33. (Original) The kit of claim 30 wherein the image transfer medium is a micro-embossed image transfer medium.

A2  
34. (New) A kit for providing a durable image on a substrate comprising:  
an image transfer medium;  
aqueous mordant dispersion; and  
dispersed hydrophobic material, wherein the aqueous mordant dispersion and the dispersed hydrophobic material are separate.

35. (New) The kit of claim 34 wherein the image transfer medium is a micro-embossed image transfer medium.

36. (New) The kit of claim 34 wherein the aqueous mordant dispersion is selected from aqueous dispersions of mordants selected from the group consisting of polymeric dye mordants, inorganic metal containing colloids, polymer bound metal ion containing colloids, and combinations thereof.

37. (New) The kit of claim 34 wherein the dispersed hydrophobic material is selected from dispersions of hydrophobic materials selected from the group consisting of fluoropolymers, silicones, polyvinyls, polyesters, polyurethanes, and combinations thereof.

38. (New) A kit for providing a durable image on a substrate comprising:  
a micro-embossed image transfer medium;  
aqueous mordant dispersion; and  
dispersed hydrophobic material.

39. (New) The kit of claim 38 wherein the aqueous mordant dispersion and the dispersed hydrophobic material are combined into a mixture.

40. (New) The kit of claim 38 wherein the aqueous mordant dispersion and the dispersed hydrophobic material are separate.

41. (New) The kit of claim 38 wherein the aqueous mordant dispersion is selected from aqueous dispersions of mordants selected from the group consisting of polymeric dye mordants, inorganic metal containing colloids, polymer bound metal ion containing colloids, and combinations thereof.

42. (New) The kit of claim 38 wherein the dispersed hydrophobic material is selected from dispersions of hydrophobic materials selected from the group consisting of fluoropolymers, silicones, polyvinyls, polyesters, polyurethanes, and combinations thereof.
